

Reading

1 Look at the sentences about Joseph's family. Read the text and decide if each sentence is correct. If it is correct, write T (true). If it is incorrect, write F (False).

- 1 John and Vincent are brothers. _____
- 2 Eleanor and Clarence are cousins. _____
- 3 Zoe and Joseph are cousins. _____
- 4 Martin shares a room with Zoe. _____
- 5 Mandy is Joseph's cat. _____

This is me

Hi. My name is Joseph and I live in Manchester with my family. I'm nine years old. I have two brothers – Martin and Jeremy. Martin is twelve and Jeremy is fifteen. I share a room with Martin and Jeremy has his own room. My dad works in a big office and my mum works in a bicycle shop. We live in a big house on a nice street in a small town. It's not in the country, but that's OK. We've got two pets – Clarence the dog and Mandy the cat. My Uncle John and my Aunt Eleanor live on the same street as us. I don't have any other aunts or uncles because my mum is an only child. But Uncle John and Aunt Eleanor have two children. They're my cousins – Vincent and Zoe. Vincent is ten and Zoe is fourteen. We go to the same school and we like playing computer games together. My grandparents live on another street in the same town. They're quite old and they don't work now. Sometimes we all eat together on Sundays and afterwards we watch a movie. We're never lonely with all our relatives!
