Writing

Time: 40 min

In your English class, you have been talking about the importance of exercise and sport in our daily lives. Now, your English teacher has asked you to write an essay.

Write an essay using all the notes and giving reasons for your point of view.

How important is it to practise a sport regularly when you are in your teens?

Write about:

1. health and fitness
2. social life
3. (your own idea)

You should write about 200 - 250 words.

~~That~~ Every teen goes through puberty period. That is when you're growing up. Most teenagers go through stress, health problems, etc. So, a sport can be a way to improve your health. Exercising upgrades our blood circulation, helps keeping our weight under control, taking stress off and making us feeling better physically and emotionally. Although, ~~it's~~ sport takes time, and not everyone has extra time in their own schedule.

What is also important is your social life. It is important to filter your friend list and get rid of toxic or/and abusive people, talk to people that who you are comfortable with.

It is okay to have a very little amount of friends, but to get along with your classmates and/or have some not so close acquaintances." It would be for the best to visit some interest sections (sports included), ~~try~~ to try something new.

As for me, I do not practice any sports or do exercising due to lack of time, ~~but~~ though I do find this as something important ~~but~~ (worthful at least). But I think trying something is still important for me as well and I ~~am~~ working on this part. What's ^{more} important for me than physical health right now is mental health, because both affect each other.

If you're healthy mentally, you're healthy physically and reversed.
