A-9-16

Some students says that three months of summer holidays <sup>gr</sup> is too <sup>gr</sup> much, and they want to go to school earlier. Some of them says, that three months is less, ~~that~~ they want to be. <sup>gr</sup>

~~On~~ On one hand, I'd rather prefer less than three months of summer holidays, because, ~~for thi~~ when this time went to past, I've forgotten more than 50% of information, given at ~~past~~ year. It will be better to be at holidays less <sup>lex</sup> than three months, at least for a school.

On the other hand, I'd ~~like to~~ ~~ten~~ prefer longer summer holidays, because there are <sup>too</sup> a <sup>gr</sup> lots of <sup>mine</sup> in summer: swimming, sunbathing, <sup>too</sup> travelling, <sup>gr</sup> play games outside, such as basketball, football, <sup>sp</sup> volleyball and so on. <sup>punct</sup> For this three months of summer holidays it is <sup>punct</sup> hard to do all of these activities, so it would be better, if summer holidays would be longer.

To sum up, <sup>style</sup> I'd like to say that either the long summer holidays, or long terms in school are both good for students, but from different views: summer holidays are to ~~rest~~ students' rest, long terms in school are to students' knowledge and opportunities <sup>in</sup> school. But I'd like ~~to~~ summer holidays to be shorter, than now, because I like to learn more <sup>gr</sup> in school.
