Writing.

Summer holiday is the most joyful and exciting time of the year, which all of the students are looking forward to. Of course, young people want their freedom from studying to be as long as possible, but learning is the thing you should focus on at that age because of the easy consuming and memorizing of information.

Well, If terms would be longer it would be better for learning. Sometimes you need a lot of time to fully understand the information given you by a teacher and in terms of a good education, it is better to have more time on the subject, than try to catch on the topic in a short period of time.

There are so many kinds of leisure activities that you can entertain yourself with on the holidays. I would recommend hiking. This is the best way to spend time for me. Although, hiking is such a physically demanding activity that requires a lot of strength, it still can bring ~~a lot of~~ joy and excitement to your life.

In my opinion, student's summer holiday should not be longer than 3 months, because when they come back to studying, all the knowledge from the last year seem to be vanished from their brains. However, it is still important for young people to learn about the world not only by studying but also by exploring the world by leisure activities.
